PROFESSIONAL SUMMARY

MCA graduate and **Full Stack Developer** with hands-on experience building cross-platform web and mobile applications using **React Native, TypeScript, Python, FastAPI, Django, PostgreSQL, and MongoDB**. Experienced in developing **REST** and **GraphQL APIs**, integrating frontend and backend systems, implementing authentication workflows, debugging applications, and collaborating in Agile product development environments.

TECHNICAL SKILLS

Programming Languages: Python, TypeScript, SQL

Backend Development: FastAPI, Django, REST APIs, GraphQL, Pytest

Frontend Development: React.js, React Native, HTML, CSS, Bootstrap, Tailwind CSS

Databases: PostgreSQL, MongoDB, MySQL, SQLite

Tools & Platforms: Git, GitHub, Postman, Jira, Linux, VS Code

Development Practices: API Integration, Authentication, Database Design, Debugging, Testing, Agile Development

PROFESSIONAL EXPERIENCE

Full Stack Developer

Doztix Group

11/2025 – 05/2026

Ernakulam, Kerala

- Developed and maintained backend services using **Python, FastAPI, GraphQL, and PostgreSQL** for cross-platform mobile applications.
- Designed and optimized **GraphQL APIs** to support efficient frontend-backend communication and scalable application workflows.
- Implemented database schema migrations using **Alembic** and optimized SQL queries for improved reliability and performance.
- Performed API testing, backend debugging, and issue resolution to maintain application stability and functionality.
- Built and integrated frontend screens using **React Native and TypeScript** based on Figma designs and connected them with backend APIs.
- Collaborated in Agile development workflows using **Jira** and **GitHub** for sprint tracking, version control, and team coordination.

Python Web Developer Intern

Luminar Technolab

07/2023 – 01/2024

Kochi, Kerala

- Developed backend web applications using **Python, Django, Django ORM, and MySQL**.
- Built **RESTful APIs**, CRUD functionalities, authentication modules, and relational database models.
- Worked on frontend integration using **HTML, CSS, Bootstrap, and JavaScript**.
- Debugged backend modules and improved application functionality through testing and optimization.

Administrative Assistant

Thomson Paper Products

06/2022 – 05/2023

Kottayam, Kerala

PROJECTS

MockMate – AI-Powered Interview Preparation Platform

React.js, Node.js, Python, MongoDB, Tailwind CSS, NLP, Gemini API

- Developed a full stack interview preparation platform with AI-generated interview questions, automated feedback analysis, and performance tracking features.
- Built RESTful APIs and backend workflows for frontend integration, user response evaluation, and analytics processing.
- Implemented NLP-based text preprocessing, semantic similarity matching, and response analysis using spaCy and NLTK.
- Designed interactive dashboards to visualize interview performance metrics and feedback insights.
- Improved application stability through API debugging, edge-case handling, and backend optimization.

CareerLink – Job Portal Application

Python, Django, MySQL, HTML, CSS, Bootstrap

- Developed a job portal application with recruiter and jobseeker management modules using Django and MySQL.
- Implemented authentication workflows, job filtering, and candidate recommendation functionalities for improved job matching.
- Built backend APIs and database-driven search features to support efficient data retrieval and application workflows.
- Designed relational database models and scalable CRUD operations using Django ORM.

CycleHub – E-Commerce Web Application

Python, Django, SQLite, Bootstrap, HTML, CSS

- Developed an e-commerce web application with cart management, order processing, payment workflows, and user authentication features.
- Built backend modules and scalable CRUD functionalities using Django and Django ORM.
- Designed relational database models and implemented product filtering and search functionalities for improved user experience.
- Integrated admin management workflows and optimized database interactions for reliable application performance.

EDUCATION

Master of Computer Applications (MCA)

Marian College Kuttikkanam Autonomous

2024 – 2026

Idukki, Kerala

Bachelor of Computer Applications (BCA)

Mahatma Gandhi University

2019 – 2022

Kottayam, Kerala

CERTIFICATIONS
